FIVE WAYS TO WELLBEING (5W2WB)

Overview

The aim of this session is to introduce 5 basic strategies grounded in research that young people and families can use to maintain and improve their wellbeing. The workshop comprises practical activities to increase basic awareness of mental health, self-care & monitoring, as well as learning alternative places for support. It can be delivered in a highly interactive format to engage primary school audiences as well as a version adapted for older audiences.

Learning Outcomes:

By the end of the session individuals will be expected to:

- Have an understanding of what mental health is and how it impacts young people
- Have practical strategies to maintain and improve their own wellbeing in the form of the 5W2WB
- Have a greater awareness and knowledge of other support available across Hertfordshire

Target Audience: Children and young people aged 5-18 years old, families & community based wellbeing events

Length: 1 hour (45mins as a webinar)

INTRODUCTION TO MENTAL HEALTH

Overview

This session provides a universal introduction to mental health by increasing knowledge of how mental health relates to everyone. Individuals will be provided an overview of common mental health issues including, prevalence, signs and how they can affect young

people. The session covers stigma and will help improve confidence in attendees around talking about mental health. The session closes with a brief overview of the 5-W2WB and makes attendees aware of the support available across Hertfordshire. This session is versatile in the audiences it may be tailored for.

Learning Outcomes:

By the end of the session individuals will be expected to:

- Have an increased knowledge and broader understanding of mental health and understand some of the most common signs and symptoms of mental health conditions in young people
- Feel more confident to have conversations around mental health
- Promote early intervention and prevention by knowing how to recognise changes in mental health and how to protect your own mental health
- Have an increased awareness of the range of support and resources available in Hertfordshire, promoting access to early advice and support

Target Audience: Children & Young people; primary (years 5 & 6); secondary schools or college; professionals; community based non-mental health trained organisations & parents/carers

Length: 1 hour - 1.5 hours

ADOLESCENT DEVELOPMENT

Overview

In this workshop we discuss mental health stigma, how adolescence is perceived and how to navigate interpersonal interactions in a way that promotes emotional wellbeing. This will be done in the context of the types of changes adolescents experience socially, psychologically and biologically. Content centred on how to improve resilience and communication will explore the benefits of talking openly, developing a support network, managing expectations and what to do if a conversation around mental health has not gone as planned. Attendees will receive a signposting guide of organisations to contact if they are ever in need of external support.

Learning Outcomes:

By the end of the session individuals will be expected to:

- Have an increased global understanding of the adolescent experience and a broader understanding of mental health
- Feel more confident holding and/or instigating a conversation around mental health and wellbeing
- An understanding of how to foster resilience in young people

- Identify key support networks of who they may have conversations with
- Have a greater awareness and knowledge of other support available across Hertfordshire

Target Audience: Adolescents, parents/carers & professionals

Length: 1.5 hours
