

LO: To understand and create food chains

Food Chains

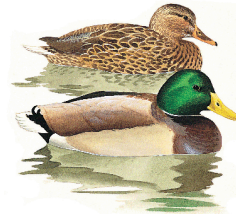

Draw the arrows in the food chain below. Then add labels underneath to show which are the PRODUCER(s) and CONSUMER(s)

Reeds

Pond snail

Duck

Draw a food chain to contain three or four living things:

Using your food chain...

Name one predator

Name one prey.....

What would happen if all the _____ died out?

.....
.....
.....
.....
.....

Extra challenge: How many other food chains can you create?
