

OUGHTON PRIMARY & NURSERY SCHOOL

Accessibility Policy 2025-2028

Policy Approval Date: September 2025

Approved by the Full Governing Body please see minutes dated September 2025

Review Date: Autumn 2028

This Policy is our own Accessibility Policy adapted in October 2022.

This Policy should be read in conjunction with the policies in Section 5.

Our Vision

Everyone working together and learning to become an outstanding school that gives support and guidance to all, working in partnership with both Parents and the community.

OUGHTONLIFE:

Learning, Inclusion, Friendship, Enjoyment..... for everyone.

Everyone – children, staff and families.

1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to sets out how we will:

- Improve access to the **physical environment** of Oughton Primary and Nursery School, adding specialist facilities as necessary. This covers reasonable adjustments to the physical environment of the school and physical aids to access education.
- Increase access to the **curriculum** for pupils with a disability, expanding and making reasonable adjustments to the curriculum as necessary to ensure that pupils with a disability are as equally prepared for life as are the able-bodied pupils. This covers teaching and learning and the wider curriculum of Oughton, such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist these pupils in accessing the curriculum.
- Improve and make reasonable adjustments to the delivery of **written information** to pupils, staff, Parents and visitors with disabilities. Examples might include hand-outs, timetables, textbooks and information about the school and school events. The information should be made available in various preferred formats within a reasonable time frame.

Our school aims to treat all pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

We strive to ensure our children will:

- Be safe
- Be healthy and happy
- Enjoy learning and achieve success
- Be able to contribute to their school and society
- Be prepared for a life in the 21st Century

Mission Statement

We aim to support not only children and staff within the school with their aspirations, but those in the wider community too.

Our guiding principles:

- ***All learners are of equal value***
- ***We recognise and respect difference***
- ***We foster positive attitudes and relationships, and a shared sense of cohesion and belonging***
- ***We observe good equalities practice in staff recruitment, retention and development***
- ***We aim to reduce and remove inequalities and barriers that already exist***
- ***We consult and involve widely***
- ***Society as a whole should benefit***
- ***We base our practices on sound evidence***
- ***Objectives set based on evidence***

1. All learners are of equal value

We see all learners and potential learners, and their Parents and Carers, as of equal value:

- whether or not they are disabled
- whatever their ethnicity, culture, national origin or national status
- whatever their gender and gender identity
- whatever their religious or non-religious affiliation or faith background
- whatever their sexual identity.

2. We recognise and respect difference

Treating people equally does not necessarily involve treating them all the same.

Our policies, procedures and activities must not discriminate but must nevertheless take account of differences of life-experience, outlook and background, and in the kinds of barrier and disadvantage which people may face, in relation to:

- disability, so that reasonable adjustments are made
- ethnicity, so that different cultural backgrounds and experiences of prejudice are recognised
- gender, so that the different needs and experiences of girls and boys, and women and men, are recognised
- religion, belief or faith background
- sexual identity – LGBTQ+.

3. We foster positive attitudes and relationships, and a shared sense of cohesion and belonging

- We intend that our policies, procedures and activities should promote:
- positive attitudes towards disabled people, good relations between disabled and non-disabled people, and an absence of harassment of disabled people
- positive interaction, good relations and dialogue between groups and communities different from each other in terms of ethnicity, culture, religious affiliation, national origin or national status, and an absence of prejudice-related bullying and incidents
- mutual respect and good relations between boys and girls, and women and men, and an absence of sexual and homophobic harassment.

4. We observe good equalities practice in staff recruitment, retention and development

We ensure that policies and procedures should benefit all employees and potential employees, for example in recruitment and promotion, and in continuing professional development:

- whether or not they are disabled
- whatever their ethnicity, culture, religious affiliation, national origin or national status
- whatever their gender and sexual identity, and with full respect for legal rights relating to pregnancy and maternity.

5. We aim to reduce and remove inequalities and barriers that already exist

In addition to avoiding or minimising possible negative impacts of our policies, we take opportunities to maximise positive impacts by reducing and removing inequalities and barriers that may already exist between:

- disabled and non-disabled people
- people of different ethnic, cultural and religious backgrounds
- girls and boys, women and men.

6. We consult and involve widely

We engage with a range of groups and individuals to ensure that those who are affected by a policy or activity are consulted and involved in the design of new policies, and in the review of existing ones.

We consult and involve:

- disabled people as well as non-disabled
- people from a range of ethnic, cultural and religious backgrounds
- both women and men, and girls and boys.
- gay people as well as straight.

7. Society as a whole should benefit

We intend that our policies and activities should benefit society as a whole, both locally and nationally, by fostering greater social cohesion, and greater participation in public life of:

- disabled people as well as non-disabled
- people of a wide range of ethnic, cultural and religious backgrounds
- both women and men, girls and boys
- gay people as well as straight.

8. We base our practices on sound evidence

We maintain and publish quantitative and qualitative information showing our compliance with the public sector equality duty (PSED) set out in clause 149 of the Equality Act 2010.

9. Objectives are set based on evidence

We formulate and publish specific and measurable objectives, based on the evidence we have collected and published and the engagement in which we have been involved. The objectives which we identify take into account national and local priorities and issues, as appropriate.

We keep our equality objectives under review and report annually on progress towards achieving them.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, the complaints procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including pupils, Parents, staff and Governors of the school.

2. Legislation and Guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

3. Action Plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.
